

Pharmaceuticals Procurement List

Third Edition
August 2024

ACKNOWLEDGEMENT

The Ethiopian Pharmaceuticals Supply Service (EPSS) would like to express its sincere appreciation to the Clinton Health Access Initiative (CHAI) and Results for Development (R4D) for their invaluable technical and financial support and the World Health Organization (WHO) for technical support in successfully revising the 3rd edition Pharmaceuticals Procurement List (PPL). EPSS would also like to extend its special gratitude and recognition to the task force members (Annex I) for their immense contributions in the preparation, coordination, and finalization of this PPL, as well as EPSS deeply values and acknowledges the participation of the experts and their institutions who actively took part in the consultative workshops (Annexes II to VI), for their invaluable contributions in enriching, organizing, and finalizing the list.

FOREWORD

Pharmaceuticals have always played a crucial role in the healthcare system and will continue to do so in the future. With the emergence of innovative interventions, their significance has become even more critical in ensuring the availability of high-quality, effective, and affordable healthcare. The Ethiopian Pharmaceuticals Supply Service (EPSS) is a public institute entrusted with the responsibility of ensuring a continuous supply of quality-assured essential pharmaceuticals at affordable prices to all public health facilities in Ethiopia.

EPSS is actively engaged in various efforts and initiatives to fulfill its public mandate successfully. Prior to 2018, EPSS managed pharmaceutical procurement requests from health facilities without a defined Procurement List, resulting in unfocused and inefficient operations despite ongoing efforts to maintain uninterrupted supply. Recognizing the importance of establishing a carefully selected list of essential medicines, EPSS developed and implemented the first and second editions of the Pharmaceuticals Procurement Lists (PPL) in 2018 and 2021 G.C. respectively. The introduction of the PPL enabled EPSS to define its product portfolio and became a significant endeavor in achieving the Pharmaceuticals Sector Transformation Plan (PSTP).

During this round of PPL revision, EPSS introduced a Pharmaceuticals Procurement Lists Revision Guideline, which served as a unique framework for the revision process of this third edition. The guideline defined the revision process and methodology based on past practices and international experiences. Valuable insights and inputs were extracted and incorporated through a series of consultations with relevant stakeholders, including health facilities, the Ministry of Health (MOH), the Ethiopian Food and Drug Administration (EFDA) Regional Health Bureaus (RHBs), the Ethiopian Public Health Institute (EPHI), development partners, professional associations, and EPSS itself. With such an inclusive and comprehensive revision process, we are delighted to present the third edition of the Pharmaceuticals Procurement List.

The proper implementation of this list is expected to significantly improve the availability of pharmaceuticals at service delivery points. It will serve as a reference for measuring EPSS's performance and assist health facilities and stakeholders in understanding the pharmaceuticals available through EPSS. Furthermore, it will encourage the private sector to

supply pharmaceuticals. Not included in the list and foster healthy competition. The list encompasses all categories of pharmaceuticals, providing a full and standardized description for each product. Additional annexes have been included for pharmaceuticals to be supplied once the budget is granted by health facilities or the MOH to EPSS. Users of the list are encouraged to consistently employ the descriptions provided in all communications and transactions to facilitate the smooth exchange of information along the supply chain.

We call upon all stakeholders to provide necessary support for the effective implementation of the list and to continue offering their assistance in updating it by providing comments and suggestions through the EPSS website (www.epss.gov.et) or via mail (P.O. Box 21904, Addis Ababa). We also take this opportunity to express our gratitude to all those who directly or indirectly contributed to the development of this list.

INTRODUCTION

The Ethiopian Pharmaceuticals Supply Service (EPSS) is a public institution established with the aim of ensuring a consistent supply of quality pharmaceuticals at affordable prices to public health facilities through need-based pooled procurement. Over the years, the Service has achieved significant milestones in terms of procurement, distribution, inventory management, and warehousing.

Despite the progress made, there still exists a significant gap in ensuring the continuous availability of pharmaceuticals to the public. In order to strengthen the country's supply chain and improve the operational efficiency of the agency, EPSS is currently implementing a revised transformation plan from 2018 to 2022. The plan focuses on achieving financial and operational self-sufficiency, ensuring high levels of product availability, delivering excellent customer service, and enhancing Supply Chain Management (SCM) expertise while providing rewarding careers for its staff. To align with the country's second Health Sector Transformation Plan (HSTP II), EPSS has evaluated its performance and developed a new strategic plan for the next 10 years (2020-2030).

EPSS has revised its vision to become the most responsive and efficient pharmaceutical supply chain organization in Africa. In line with this vision, the Service aims to ensure a sustainable supply of quality assured essential pharmaceuticals to health facilities at affordable prices through pooled procurement, robust inventory management and distribution, effective financial management, an integrated management information system, and by attracting and retaining motivated and competent workforce.

Based on a situational analysis, stakeholder feedback, and the revised mission and vision statements, EPSS has identified four strategic themes for its New 10-year program: Excellence in Customer Service, Financial Sustainability, Operational Excellence, and Excellence in Human Resource Management, Leadership, and Governance. Through these strategic themes, the Service intends to achieve high levels of customer satisfaction, improve financial capacity for supply chain operations, establish a flexible and reliable operational model, and develop a learning organization with skilled and talented staff.

As part of its overall operational transformation, EPSS has made significant progress in procurement over the past two years through the implementation of business process reengineering. To reduce repetitive tendering and procurement throughout the year, the Service has introduced long-term framework agreement procurements for products related to HIV/AIDS, family planning, malaria, and vital pharmaceuticals, medical supplies, and chemical reagents. These agreements enable the Service to streamline procurement processes and ensure a consistent supply over an extended period.

Considering advancements in medical and pharmacological technology and expert recommendations, EPSS has revised the previous edition of its procurement list. This list will be used for annual quantification and procurement of pharmaceuticals for the next three years. The list was critically reviewed by relevant experts in consultative and validation workshops organized by the Service. Medical equipment has been categorized into capital and non-capital groups based on complexity, with capital equipment requiring an official agreement with the Service to initiate the procurement process. To minimize the burden of repetitive tendering, tenders for capital equipment procurement will be floated twice per year.

EPSS is committed to ensuring the continuous availability of pharmaceuticals listed and will revise the list every three years. The Service will also strengthen collaboration with all supply chain stakeholders to achieve its goals. Given that the success of this initiative depends on the support of all stakeholders, from national policymakers to end-users, EPSS encourages everyone to contribute to improving access to essential medicines in Ethiopia.

8	Chemical - Buffer - PH 7.0 – Tablet	20tab

S. N	Item Description	Unit
9	Chemical - Immersion Oil - Refractive Index of 1.515 - Viscosity 1250 cSt at 37 °C	100ml
10	Chemical - Potassium Hydroxide - 10% - Solution	1L
3.2. SEROLOGY AND IMMUNOASSAY		
11	Urine Dipstick 10 Parameters (Blood, Bilirubin, Urobilinogen, Ketone, Protein, Nitrite, Glucose, PH, Specific Gravity, Leucocytes)	100tests
12	Serology - Anti Nucleic Antibody (ANA) Immunochromatographic Rapid Test Cassette - Individually Packed, Whole Blood/Serum/Plasma	50tests
13	Serology - Pregnancy Rapid Test Strip (HCG)- Urine - Individually Packed	50tests
14	Serology - Cardiac Troponin Immunochromatographic Rapid Test Cassette - Individually Packed, Whole Blood/Serum/Plasma	20tests
15	Serology - Alpha Fetoprotein (AFP) Immunochromatographic Rapid Test Cassette - Individually Packed, Whole Blood/Serum/Plasma	40tests
16	Serology - Anti-Human Globulin-AGT (Coombs') IgG and IgM Test Reagent	10ml
17	Serology - Anti-Streptolysin O Antibody (ASO) Rapid Test Cassette - Individually Packed, Whole Blood/Serum/Plasma	50tests
18	Serology - C-Reactive Protein (CRP) Immunochromatographic Rapid Test Cassette - Individually Packed, Whole Blood/Serum/Plasma	50tests
19	Serology - Anti-A, Anti-B, Anti-D Monoclonal Antibody Test Reagent	3x10ml
20	Serology - Cryptococcal Antigen Lateral Flow Reagent Test Strip - Individually Packed, Whole Blood/Serum/Plasma	50tests
21	Serology - Helicobacter Pylori (H. Pylori) Antigen Immunochromatographic Rapid Test Cassette - Individually Packed –Faeces	50tests
22	Serology - Hepatitis BsAg Immunochromatographic Rapid Test Cassette - Individually Packed, Whole Blood/Serum/Plasma	30tests

S. N	Item Description	Unit
23	Serology - Hepatitis C Antibody Immunochromatographic Rapid Test Cassette - Individually Packed, Whole Blood/Serum/Plasma	40tests
24	Serology - Occult Blood Immunochromatographic Rapid Test Cassette - Individually Packed, Whole Blood/Serum/Plasma	50tests
25	Serology - Prostate Specific Antigen Immunochromatographic Rapid Test Cassette - Individually Packed, Whole Blood/Serum/Plasma	25tests
26	Serology - Proteus OX-19 (Weil-felix) Antigen Test Reagent	5ml
27	Serology - Syphilis Immunochromatographic Rapid Test Cassette - Individually Packed, Whole Blood/Serum/Plasma	40tests
28	Serology - Rheumatoid Factor (RF) Immunochromatographic Rapid Test Cassette - Individually Packed	50tests
29	Serology - Salmonella Typhi "H" + "O" Antigen Immunochromatographic Rapid Test Cassette - Individually Packed – Faeces	25tests
30	Serology - Treponema Pallidum Haemagglutination (TPHA) Rapid Test Cassette - Individually Packed, Whole Blood/Serum/Plasma	50tests
3.3. IMAGING CHEMICALS AND SUPPLIES		
31	Chemical - Gadolinium Chelate with a concentration of 0.5mmol/ml of 15ml Vial or 1mmol/ml of 7.5ml Vial Solution for Injection	15ml/7.5ml
32	Chemical - Low Osmolar Iodinated Contrast Media - 350_370mg/ml of 50 ml Vial	10
33	Chemical - Ultrasound gel 5 Liter - Plastic Holder	Bag
34	Chemical - Ultrasound Print Paper	Roll
3.4. LABORATORY SUPPLIES		
35	Laboratory Supplies - Microscope Lens Cleaning Tissue Paper Lint Free: 4x6 inch W (10.1x15.2 cm) Sheets Per Book	100

S. N	Item Description	Unit
36	Laboratory Supplies - Microscope Lens Cleaning Solution - Non-Flammable: 2 oz	100ml
37	Laboratory Supplies - Applicator Stick Wooden 15cm Long Thickness 2.5mm Without Cotton	100
38	Laboratory Supplies - Contact Activated Blood Lancet - Disposable Sterile - Retractable - Automatic 2mm	100
39	Laboratory Supplies - Capillary Tube Sealer of 2mm Thickness	2x5mm
40	Laboratory Supplies - Cover Slides - Rectangular - Size 22x22 mm - Thickness 0.13 mm	100
41	Laboratory Supplies - Conical Test Tube - Graduated 10 ml – Plastic	50
42	Laboratory Supplies - EDTA Hematocrit Capillary Tube Length 75mm - ID 1.1-1.2mm, OD 1.5-1.6mm - 50µl	100
43	Laboratory Supplies - Disposable Plastic Citrated ESR Graduated Pipette Tube -Total length of 200mm and Graduation from 0 to 150mm, Increment of 1mm	100
44	Laboratory Supplies - Filter Paper Qualitative Whatman Grade1 Diameter 150 mm	100
45	Laboratory Supplies - Micropipette Tips 10-200 µl	1000
46	Laboratory Supplies - Micropipette Tips 200-1000 µl	1000
47	Laboratory Supplies - Cryogenic Vial - Self Standing - Round Bottom - 2ml	100
48	Laboratory Supplies - Microscope Slides - Size 25-27x75 mm - Thickness 1.2mm - Frosted end - with Tissue Paper between each Slide	50
49	Laboratory Supplies - Pasteur Pipette - Non - Sterile 3ml – Plastic	500
50	Laboratory Supplies - Stool Specimen Container Disposable - Polypropylene with Cover	500
51	Laboratory Supplies - Urine Cup Plastic of 40ml	500
52	Laboratory Supplies - Vacutainer Blood Collector Tube with EDTA anti-coagulant - Purple Top 4ml –Plastic	100

S. N	Item Description	Unit
53	Laboratory Supplies - Vacutainer Blood Collector Tube with Tri-sodium citrate anti-coagulant - Blue Top 4ml – Plastic	100
54	Laboratory Supplies - Vacutainer Needle Holder	100
55	Laboratory Supplies - Vacutainer Needle 21G	100
56	Laboratory Supplies - Vacutainer Serum Separator (SS) Tube - Yellow Top 5ml – Plastic	100
3.5. MISCELLANEOUS CHEMICALS		
57	Chemical - Denatured Alcohol 70% - Solution	Litter
58	Chemical - Chlorhexidine Gluconate +Cetrimide 1.5%+15%w/v –Solution	Litter
59	Chemical - Iodine Tincture - 2% - Solution	500ml
60	Chemical - Lugol's Iodine for Medical Use - 5% - Solution	500ml
61	Chemical - Povidone Iodine - 10% - Solution	130ml
